UNOFFICIAL RESULTS REPORTING

1. Results for each school attendance area are reported from two voting locations:
 - a. Valid votes received by the Referendum Officer, whether by in-person voting or issued by mail and returned to the Referendum Officer, and
 - b. Valid votes received at Elections Yukon, whether by in-person voting, returned by mail or via the secure drop-box.
2. If 5 or fewer valid votes are received at Elections Yukon, the total for both voting locations will be combined rather than reported separately. This is done to protect the secrecy of the vote.
3. The Minister shall establish a School Board if at least 50% plus 1 of the valid votes returned are a YES. A minimum of 3 votes is required. The formula for calculating the threshold is the number of valid votes multiplied by 50% plus 1 (rounded up).

Examples:

Valid votes	Calculation	YES votes required to meet threshold (rounded)
1	$= (1 \times 50\%) + 1$ $= 0.5 + 1$ $= 1.5$	2 YES votes required <i>Threshold cannot be met</i>
7	$= (7 \times 50\%) + 1$ $= 3.5 + 1$ $= 4.5$	5 YES votes required
50	$= (50 \times 50\%)$ $= 25 + 1$ $= 26$	26 YES votes required
100	$= (100 \times 50\%)$ $= 50 + 1$ $= 51$	51 YES votes required
